

THE PEOPLE OF THE COMPUTATION CENTER

The Computation Center at the University of Texas at Austin was founded on June 1, 1958 with Dr. David M. Young, Jr as the first director. He served in that capacity until July 1, 1970. The Computation Center provided computing services and telecommunication services to the academic community until August 31, 1996 - at which time the Computation Center ceased to exist as an organization.

This report attempts to list all of the persons who worked in the Computation Center for at least one year during the period between June 1, 1958 to August 31, 1996. The data for this report was obtained primarily from the printed budgets of the Computation Center during the 1958-1996 period.

The year employment began is listed for each individual along with the number of years each individual served. Also shown is the position held by each individual at the time of resignation, retirement, or on August 31, 1996.

The "Administrative and Professional" positions include the senior management and faculty joint-appointees who served in research capacities. The departments or organizations for joint appointees are shown in parentheses. The balance of the positions listed are regarded as "Classified" positions.

The report consists of four parts:

- (1) The "Administrative and Professional" Personnel
- (2) Those Individuals Who Served 20 or More Years
- (3) Those Who Served Between 10 and 20 Years
- (4) Those Who Served Between 5 and 10 Years
- (5) Those Who Served Less Than 5 Years
